KNIGHTS COLUMBUS TO INITIATE 60

Class of Candidates from Brainerd and Range to Receive Degrees Sunday at K. C. Hall

To Attend Mass at 8 A. M., First Degree in Hall at 10:30, Second and Third in the Afternoon

The Knights of Columbus of the local council will initiate a class of sixty on Sunday, candidates being from Brainerd and the range country. Preparations have been made to receive a large number of visiting knights. The entertainment committee includes A. B. Willing, J. P. McGill, B. B. McGivern and Joseph Mraz. Knights of Columbus are expected from Staples, St. Cloud, Little Falls, Crosby, Ironton, Waedna and other towns.

All knights are requested to be at the Knights of Columbus hall at 7:30 Sunday morning and will march in a body to attend 8 o'clock mass at St. Francis Catholic church, Father John Crean being the celebrant.

At 10:30 o'clock the first degree will be conferred at the hall and at 2 P. M. the second and third degrees. Supper will be served in the hall, W. J. Garvey being the caterer who is preparing to serve 250.

ARABS WIPE OUT TURKS

Inflict Heavy Loss on Moslems South of Dead Sea.

General Allenby Reports Engage-ment—British May Cut Enemy Railway Communications.

Washington, Feb. 9.—Under command of the satek of Mecca, Arab forces have completely defeated a Turkish army operating southeast of the Dead sea, official dispatches state.

In a sanguinary battle which began Jan. 30 the Arab tribesmen virtually annihilated the entire Turkish force, capturing 300 prisoners, including the Turkish commander-in-chief, and his staff, the report states.

The Turkish loss in killed alone exceeded 400. Eighteen machine guns, two mounted guns and a large amount of booty fell into the hands of the Arabs.

Turks Cut to Pieces.
The engagement, according to the report made to General Allenby of the British expeditionary force in Palestine, began at Kerek, near the southeastern extremity of the Dead sea. The Turks, badly beaten, left many prisoners, seven machine guns and a large quantity of booty, retiring in disorder.

Pursuing Arabs overtook the detachment near Tafle, where the remaining forces were cut to pieces.

In the Jerusalem sector, General Allenby reports that railway communication has been opened with the Jerusalem railroad, which virtually assures the British line of communication in their drive across the Jordan to cut the Hejaz railroad.

Arabs Great Aid to Allies.
If this campaign, which military critics predict is Allenby's plan of strategy, is successful, the Turk communication line with Medina will be broken.

Tribesmen under the sheik of Mecca or king of Mecca, as the former scribe of Medina now designates himself, have been of great assistance to the British expeditionary forces in driving the Turk from the Holy land.

Shortly after the British campaign in Palestine got under way the sheik, ruling over Mecca and Medina by the authority of the sultan, declared the independence of Arabia from Turkish rule.

England immediately recognized the newly formed government and as a result the Arabs allied themselves with the British.

Sensational Charge Victims Political Persecution Plot

(By United Press)
Washington, Feb. 9.—Representative John Nelson, of Wisconsin, made the sensational charge on the floor of the house that he and his son were the victims of political persecutions resulting in grand jury indictments last October against them for anti-draft conspiracy. He said the jury returning indictments included leading politicians not friendly to him. Nelson hotly denied that he or his son were conscientious objectors.

The Wisconsin congressman was indicted for conspiracy to defeat the draft law on the specific charge that he urged his son to go to Canada and marry to evade the draft. He showed that his son left before registration day under rearranged plans and married the girl to whom he had been engaged for several years, and the court dismissed the case.

RAIL PRIORITY ORDER GIVEN

Aim of McAdoo Is To Move Soft Corn.

Washington, Feb. 9.—Transportation priority for grain, flour, cornmeal and other grain products in Western and Middle Western producing states has been ordered by Director General McAdoo to hasten to market all grains and particularly the vast accumulated stores of soft corn.

The order directs that preference be given in loading cars in Illinois, Indiana, Iowa, Wisconsin, Minnesota, North Dakota, South Dakota, Nebraska, Kansas, Missouri and Oklahoma.

This corn, full of moisture as a result of last year's growing conditions, composes as much as 40 per cent of the stocks in many sections and is threatened with rotting in moderate weather of the last few days unless rushed to elevators and dried.

Little Hope Left That American Loss Less Than Report

(By United Press)
Washington, Feb. 9.—Another 24 hours waiting left little hope that the loss of American soldiers and officers would be less than the original United Press figures which placed it at 147 United States soldiers and officers (the official figures still remaining that 210 are missing, but it is believed that a reckoning of the crew will lower this number. It is not likely that the casualty lists will be issued before next week.

Bodies of Forty Men Still Missing From the Tuscania

(By United Press)
London, Feb. 9.—British trawlers and coast guards are conducting a thorough although apparently hopeless search for the bodies of 40 men still missing from the Tuscania.

The revised admiralty figures show 2,235 saved, 166 missing and 126 bodies recovered. The bodies reported recovered are believed to be included in the 166 missing. The best details available confirm the United Press figures of Thursday that 147 American soldiers and officers were missing and that the members of the crew missing brought the figures to the total of 210 missing.

RED CROSS CARD PARTY AND DANCE

Conservation Lunch to be Served in Evening at Function to be Held on Lincoln's Birthday

K. C. Hall to be the Scene of a Pleasant Community Affair Cementing Social Relations

The informal dance and card party to be given by the Brainerd Chapter, American Red Cross at the K. C. hall Tuesday evening, February 12th, promises to be one of the most pleasant social features of the season, not only from the fact that a very enjoyable evening is assured, but because the public generally is strongly in sympathy with the splendid work being done by the Red Cross in this particular locality.

The splendid report recently made of the large shipment of completed articles to the Minneapolis Headquarters and the unselfish devotion to duty indicated on the part of every Red Cross community in the county, have had a most encouraging effect upon public sentiment in support of the Red Cross work and many very kind letters of appreciation have been received, while substantial donations from different organizations indicate their interest and sympathy in the work.

Strictly Informal

The party, as stated, will be strictly informal and the tickets are sold at a nominal price in order to make it possible for everyone to become one of this big community gathering in the interests of a very worthy movement. Those who do not care to dance may enjoy cards and vice versa, those who do not care for cards may rip the light fantastic to their hearts content. Good music will be afforded. The arrangements of affairs are in the hands of Mrs. W. A. Fleming, which in itself insures success and everything indicates that a large and democratic gathering of our people will enjoy this function.

An Urgent Invitation

In fact it is going to be quite the thing to be at the Red Cross party and unless one has a very good excuse to remain away, it is quite likely that they may be considered in the slacker's class, for the reason that the demand upon the purse strings of the Red Cross are so heavy that it has become necessary to raise money in every legitimate way possible to continue the great work of the organization.

Conservation Lunch

A plan has been considered to serve a light conservation lunch during the evening, which may be enjoyed by those who care to pay for the same. The lunch would subserve two very important ends, namely: The one to

bring in additional revenues with which to purchase materials for sweaters, socks and necessary garments for our boys abroad and secondly would indicate to the public just what can be done along conservation lines in the matter of food. In other words, it would afford a splendid object lesson in conservation and an opportunity to study this great line of work in connection with our war activities. It is the plan of the Red Cross to use conservation recipes, conservation menus will be distributed and the luncheon itself be conducted along such lines as to impress upon the public just what can be accomplished in the home in the line of food conservation.

Idea Approved

No one of a thinking mind or a broader vision of things can but admit that a sweater for the back of a soldier at the front is probably just as essential as may be an extra bun or doughnut for the inner man, and while the conservation idea will be strictly emphasized by this luncheon at the same time such foods as are furnished will be donated gratis by the willing housewives of Brainerd and the result will be that no lavish or extravagant use of foods will be possible.

Idea Popular

The general idea, when discussed by our leading community activity workers has met with prompt approval and the Red Cross is being congratulated upon this idea in connection with the party. Mrs. W. A. Fleming was happily selected as chairman of the committee on general arrangements and will enlist a number of prominent ladies to assist her while Dr. K. H. Hoorn will have the important work of placing the tickets among our citizens.

Red Cross party tickets are available at the office of the secretary of the Chamber of Commerce and may be secured from Dr. K. H. Hoorn or his assistants and it is expected that there will be no slackers when the evening of Lincoln's birthday comes around, but that the K. C. hall will be a scene of a pleasant community affair and pleasant social relations in a line of work deemed by the general public as of such wide scope and actual achievement as not only warrant the support of every individual in a financial way, but his moral support and influence as well.

The Making of Successful Men

Pass Book

YOUNG men can consider with profit the important part that good banking connections have had in the making of successful men.

It is safe to say that the majority of men who make a mark for themselves in business, owe much of their success to the fact that they have put themselves in a position to obtain the advice, co-operation and financial help of a good bank at critical times in their careers.

The wisest plan is to build up your acquaintance and credit at this bank *before* you need its accommodation. Give its officers an opportunity to become acquainted with you, your capabilities, your ambitions and your prospects.

ASKS 'FINANCIAL DRAFT' MEASURE

McAdoo Before Committee, Urges Bill to Compel U. S. Approval of Bond Issues.

BUREAU IS PROPOSED

\$500,000,000 Corporation Would Forestall Possible Necessity of Issuing Uncovered Paper During War—Aims to Marshal Credit.

Washington, Feb. 9.—Secretary of the Treasury McAdoo has asked of the Senate finance committee a "financial draft" law to require all persons to seek government approval before issuing credit. He appeared before the committee in connection with the proposed \$500,000,000 government finance corporation.

The measure, he declared, will forestall necessity of issuing a form of money with no gold back of it, as might be necessary if the war lasts long enough.

"The bill does not contemplate in any sense an issue of uncovered paper," declared Mr. McAdoo in response to a question by Senator Reed Smoot. "We may have to come to that, but this possibility is most easily met by the system proposed in the bill."

McAdoo answered Critic. McAdoo explained that the main purpose of the bill was to marshal the nation's credit for war purposes, to prevent unnecessary expansion in any direction not essential to war work and to prevent the banks extending credit on anything but sound securities.

The provision of the bill which gives the secretary of the treasury the power to appoint the directors of the corporation was criticized by Senator Boies Penrose.

McAdoo answered by saying that the president already was overburdened and that he did not think further burdens should be placed upon him.

The present practice of the government in advancing as much as 30 percent of war contracts to contractors at a low rate of interest was drawing more and more heavily on the treasury, he said.

Action Similar to Draft Law.

The \$500,000,000 government corporation, proposed in the bill, is designed to take care of this needed credit, he explained.

"Do you mean to say that present going concerns not engaged in war work shall be prevented from issuing refunding paper?" asked Senator Townsend.

"No," said McAdoo, "we think all such issues should be first submitted to the government for its approval, though."

"This bill would act in a financial way as the draft law does," he said. "It would compel those who will not voluntarily come to the government for approval to do so along with those who willing come."

He further explained that the proposed law would reassure savings banks and mutual savings banks among which there was some uneasiness now.

"The government corporation would be able to extend credit to this class of banks in the event of heavy withdrawals," he said.

Bloodshed in Peace Riots.

Amsterdam, Feb. 9.—A serious four-day peace demonstration occurred at Lemberg, according to dispatches received here. In clashes between the authorities and the demonstrators three policemen were killed and 49 civilians wounded.

Admiral Jellicoe Says It Will Be Over by August.

London, Feb. 9.—Admiral Sir John Jellicoe, former chief of the naval staff, speaking at Hull, said he was aird "we are in for a bad time for a few months—but by late summer—about August—I believe we will be able to say the submarine menace is killed."

Admiral Jellicoe said the reason for the recent losses in the Irish sea was there was shoal water on either side of that sea, at the bottom of which a submarine could sit and remain when hunted.

GLASS OF SALTS
CLEANS KIDNEYS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urines so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and you don't you will wonder what became of your kidney trouble and backache.

Could Not Eat or Sleep Made Well By PERUNA

Mr. William F. Denny, 1023 Park Ave., Springfield, Ohio, writes: "I find great pleasure in writing you and thanking you for what Peruna has already done for me. I have been troubled with catarrh for years, and it had affected my head, nose, throat and stomach, that I could not eat nor sleep with any satisfaction."

"I have just taken three bottles. I can eat most anything and am greatly relieved of nervousness, so that when I lie down I can sleep without the least trouble. I recommend it to all those who are sufferers of that dreadful disease, catarrh."

Spring Dresses for Little Girls

Spring dresses for little girls are abundantly displayed just now and all women appear to enjoy looking at them. Surely she who has no interest in any little one is missing something that belongs to her; for these little dresses bring a smile and a lingering look to all eyes.

Cottons as fine and smooth as those woven in French looms, and enticing colors, gay and soft, make the sections of stores where the dresses are shown as bright as spring gardens. These fine cottons are the product of American looms and these lovely colors show how great an advance has been made in the manufacture of American dyes, the great war having compelled us to rely upon ourselves for dyestuffs, we may become entirely independent of other countries.

The dress at the left is so adequately pictured that it hardly needs description. It is shown in several patterns of fine gingham and is made with pockets cut on the diagonal, narrow bias banding and a collar of plain chambray of the same color as the dark bar in the gingham. The little dress at the right is of Peter Pan collar, much like a smooth chambray but softer. It is shown in light yellow, medium shade of blue and two or three pink tones. There is a smocked panel between plaits at the front and back and collar and cuffs of white cotton, with buttonholed scallops on the edges. Any of the heavier weaves of cotton will serve for these.

Patterns for dresses very like these are to be had of any of the standard pattern companies. Mothers select the plainest ones and make up quantities of gingham for play dresses. The Peter Pan dress is not for such hard wear; it has more needlework on it and is not so easily laundered. It may survive several dinner times, or visits, or trips to Sunday school before it must be consigned to the tub. And it may be depended on to emerge as good as new—as fresh and sweet as it should be for so sweet a wearer.

WOMAN'S REALM

MISS J. L. CODY WRITES OF CHINA

Her Book, "Letters to Betsey," Placed in Brainerd Public Library by Brother R. E. Cody

SHE GIVES LIFE EXPERIENCES

Six Years Spent in Central China. Was Red Cross Nurse in Revolutionary Days

Rev. R. E. Cody is placing this week in the Brainerd public library, as a gift, two copies of a book written by his sister, Jennie L. Cody, who has spent over eight years as a missionary in China.

The book "Letters to Betsey," is taken from the life experiences Miss Cody had during her first term of six years in Central China. During the Chinese revolution when the missionaries were ordered to Shanghai for protection, she volunteered as a Red Cross nurse and went back to Hankow where she served in an emergency hospital during all the revolution. Some of the most fascinating portions of the book are the vivid descriptions of those terrible days in China.

As interesting as a novel are these vivid descriptions of incidents and people as experienced by an American girl in a foreign land.

Returning for her first furlough after six years of service, Miss Cody completed her trip around the world and writes briefly of her visits in Egypt, Palestine, Rome, Switzerland and London.

This is a book that will be particularly interesting to girls and young women.

Helps Direct General Run American Railroads

Miss Frances Hawthorne Brady of Washington D. C., was the first woman named on the staff of William G. McAdoo, director general of American railroads. Miss Brady has been prominent in society in Washington, but she felt she would try to do something for the government so she sought a place in the railroad management.

DAYS OF DIZZINESS

Come to Hundreds of Brainerd People

There are days of dizziness. Spells of headache, languor, backache; Sometimes rheumatic pains; Often urinary disorders. Doan's Kidney Pills are especially for kidney ills.

Endorsed in Brainerd by grateful friends and neighbors.

Mrs. J. E. Britton, 1093 S. Seventh St., Brainerd, says: "For three years, I had been suffering from kidney trouble and though I tried most everything for relief, nothing did me any good. I was weak and run down from the cutting pains across my back and at times they extended into my limbs. Many a day I could hardly drag myself around. I was in such misery. I had blinding dizzy spells and my hands and fingers would swell. My kidneys acted irregularly, too. I began taking Doan's Kidney Pills and soon noticed improvement. I kept on and after using two boxes I was as sound and well as ever. I have never had any return of the trouble."

RED CROSS DONATIONS

Symphony Orchestra Sends in \$100
Farm Bureau \$25, Black Hawks \$10, Others Assisting

The Brainerd, Chapter, American Red Cross, acknowledges with much appreciation the following donations received since the last announcement: Brainerd Symphony club, receipts from musicale, \$100; Crow Wing County Farm Bureau, \$25.00; Black Hawk Club, \$10.00; Brainerd Teachers' Association, \$5.00.

These donations have all been made with the cheerful co-operation of the organizations themselves and it adds to the pleasure of conducting the great work of the Red Cross in Crow Wing county to feel that the general public is in hearty sympathy with the work and the chapter wishes to publicly acknowledge the same through the local press.

The donation of the Symphony orchestra is much appreciated owing to the fact that the same was the outcome of the work of our younger people of the city, they being members of that splendid organization. They are also taking active part in surgical dressings work and it is an inspiring sight at the surgical dressings rooms to see young America with his or her sleeves rolled up, doing their bit for the boys "over there."

To Resist the Attack

of the germs of many diseases such as Grip, Malaria, means for all of us—fight or die. These germs are everywhere in the air we breathe. The odds are in favor of the germs, if the liver is inactive and the blood impure.

What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no "weak spots," or soil for germ-growth.

I tried a great many 'so-called' tonics, but felt no better until a friend suggested my trying a bottle of Dr. Pierce's Golden Medical Discovery, which gave me immediate relief. It is surely an excellent tonic, does not purge and is not objectionable to the taste. I was living in England when I first took 'Discovery.' To Remove Smoke Stains.

This suggestion will be beneficial to housewives who have not the convenience of electricity or the modern gas fixtures. Frequently the ceiling above an old-fashioned gas jet becomes discolored from smoke and heat. The discoloration may be removed if a layer of starch and water is applied with a piece of flannel. After the mixture has dried it should be brushed lightly with a brush. No stain or mark will remain.

Turkey Pledges Support for War.

Amsterdam, Feb. 9.—"While we are aware of the great value of peace, Turkey will never conclude a separate peace at any price," Halil Bey, new Turkish foreign minister, declared in an address before the chamber, according to a Constantinople dispatch. Halil said Turkey was in complete agreement with Hertling and Czernin and added: "We will hold on until some concrete success is attained. We will make only such concessions as are compatible with our honor and national dignity."

CAUSING SOME COMMENT

Regardless of what action is taken at the conference called for Tuesday in this city to talk over congressional matters affecting the Sixth district the fact remains that there is considerable unrest in the Knutson camp over the matters and an effort is being made to discredit the movement by endeavoring to pin a "Fred Lynch" label to it. This will not have the desired effect for if there is an honest endeavor behind the proposed call it will be in evidence when the conference assemblies and will be more so after the object and accomplishments have been made public. This is a republican district and a republican should represent it in the halls of congress and we doubt very much if there will be any manipulation that will show the fine Italian hand so much hinted at and devoutly sought by those opposed to a movement by the people. As the call gives a wide latitude it may be possible that the sentiment for a successor to the present congressman will not prevail.

The men who are at present in the limelight as prospective or pronounced candidates for the republican nomination against the sitting member disclaim any responsibility for calling the Brainerd meeting it is possible that the sentiment is more widespread than the public has been led to believe. The calling was without advice or knowledge of anyone in this city, but the selection shows that Brainerd is considered the most accessible and is the logical place for holding conventions in this section of the state, and the request to the Chamber of Commerce that they provide a meeting place has been complied with and the people of Brainerd will welcome with open hands the "strangers without our gates."

THE LEAN WITH THE FAT

February and March are always the hard months to live through. It is easy enough to go through the early part of winter on the spur of energy left over by summer and fall. But after the corner of the year is turned, and the Christmas excitement is over, and life settles down to a grind, it seems a very long time till spring.

This is especially true in the matter of food. And more so than ever in this time of war. Only at big and expensive city markets are green foods obtainable, and that cuts most people out. Last summer housewives canned more vegetables than ever before. They still have these to draw on, and they still taste pretty good. But in most homes just about now, people are finding it hard to do without bacon—once a staple, but now religiously saved for the soldiers in France. They find it hard to do without sugar. It is hard to pay the high prices for the few things which the situation or their consciences will let them buy.

But—after all, it's pretty easy for Americans when they think of what the other nations are enduring. And, after all—it's not long now till spring. The Germans will find these months far leaner than we will, for this is their fourth lean year. If they can stand it, we certainly can.

With February, no matter what its weather, comes the feel of spring. We have not long to wait. Sticking it out with good cheer is the only thing to do.

TO OUR PATRONS

After careful consideration covering a period of several months the Dispatch has decided to increase the subscription rate of both daily and weekly publications. It had been hoped that the move would not be necessary but the increased cost of print paper, printing material of all kinds and everything that goes into the making of a newspaper has made it necessary if the present high standard of the publication is to be maintained and the publishers believe that the patrons will heartily agree that the slight increase in the subscription rates will be more welcome than would the curtailing of news reports and other features that go toward making up a first class daily and weekly newspaper.

The Dispatch aims to give the people of Brainerd and Crow Wing county all the news all the time, in a clean, acceptable manner, and the steady increase in the subscription list leads the publishers to believe that the efforts have been appreciated. The new rates go into effect March 1, 1918, and subscribers who wish to take advantage of the offer may renew their subscriptions to the paper at the old rate until that time.

"Charles A. Lindbergh for governor," is the headline that announces the probable advent of the Little Falls statesman and former congressman from the Sixth congressional district into the state political game as the candidate of the non-partisan league at the coming election. The announcement comes as the result of a dinner which Mr. Lindbergh attended in St. Paul given by the non-partisan league and labor leaders of St. Paul and Minneapolis in honor of the dismissal charges of inciting riot against James Mahan, T. J. McGrath and Oscar Keller, at which time he made an address and the opinion is that he will file for the governorship. The senatorial ambition of Mr. Lindbergh has been dampened by the probability that Senator Nelson will listen to

TEUTON RAID IS FOILED

American Guns Blow Up German Battery.

Shell Lands on Munitions Dump and Heavy Explosion is Result.

With the American Army in France, Feb. 9.—A German battery has been blown up by our "heavies."

A heavy explosion was observed behind the enemy's "camouflage" and the German battery was set afire, one of our shells evidently having landed in a munitions dump.

Some time prior to this our barrage foiled an attempted raid of two strong enemy patrols, which were unable to advance through our harassing machine gun, automatic rifle and grenade fire.

The German attempt to "strafe" our trenches was answered by effective counter battery work, the Americans breaking up the enemy fire.

American Sharpshooters Active.

American sharpshooters on the sector held by the United States forces northwest of Toul, on the western front have matched their marksmanship and wits against the skill and experience of the German riflemen opposed to them and thus far have had the advantage.

Enemy snipers have been routed from their hiding places among bushes in the hilly wooded terrain or in shell holes by the expert fire of the Americans and where the rifle proved unavailable there was brought into action machine guns or light artillery which destroyed the German shelters and made casualties of their occupants.

There has been little activity on any of the other battle fronts. Italian aviators dropped a ton of bombs on aviation grounds at Motta di Livenza.

NATIONWIDE FAST DAY

Is Proposed in Senate by Utah Solon.

Washington Senator Makes Plea for Legislation to Compel "City Loafers" to Work.

Washington, Feb. 9.—The Senate was occupied with recommendations for a national fast day, draft into real work of the "city loafer," and a general discussion of the farm labor shortage.

Senator Smoot came out for a lengthy "fast day" on which the people should eat but one meal. Figuring on a basis of each meal costing 25 cents (general laughter at the figures) he estimated that the nation would save \$50,000,000 annually for war saving stamps and other war investments.

He warned of a general tightening of the belt if the war goes on two years longer. Smoot asserted that the American people were consuming far more food per capita than other nations and called attention to his speech a year ago when he declared that "the American garbage can was the fullest in the world."

Lack of proper distribution facilities was the cause of food shortages, Senator Dora interrupted to say.

Would Make Loafers Work.

A plea for legislation that would compel "city loafers" to work was made by Senator Jones, Washington.

"The draft law took many farm laborers," said Jones, "and high wages paid in other industries attracted a great many more workmen from the farms. But in this city and in every other city there are thousands of corner loafers. There ought to be some way to compel these men to become producers."

"Are we not getting to the point where it will be necessary to draft every man and woman in this country and compel him and her to do his or her part in winning the war," Jones concluded.

SPY ACTIVITY IS SUSPECTED

U-Boat Believed to Have Had Information on Transport Sailings.

London, Feb. 9.—That Germany had information of the coming of the transport *Turcania* and other vessels with important personages aboard is the belief expressed by passengers on ships which accompanied the torpedoed ship.

A distinguished personage from another ship who witnessed the attack, said three torpedoes were fired at his own vessel. He declared his belief that the U boat commander was acting on information obtained through the German spy system.

Liquor Shipment Prohibition Beaten.

Columbia S. C., Feb. 9.—The South Carolina senate, by a majority of three votes, defeated a bill passed by the house of representatives prohibiting the shipment of any whisky or other alcoholic liquors into South Carolina for any purpose. Both houses already have adopted the national constitutional prohibition amendment.

Our Rabbits.

The term rabbit was formerly more properly applied to the burrowing species of the old world, *Lepus cuniculus* (meaning to burrow), though by common usage our molly cottontail has so long been termed a rabbit that the name will now stand, as will that of jack rabbit for the big western hare of the prairies and Pacific coast.

Washington, Feb. 9.—The Twentieth engineers (forest), some of whose members were aboard the torpedoed *Turcania*, is the largest and most unusual regiment in the world. Its aggregate strength is 17,000 officers and men under command of Col. W. A. Mitchell, U. S. A. The regiment was trained at the American university camp here. Forest regiments work that others may be made comfortable. It is their duty to cut timber in the forests of France for military uses at the front.

OLD-TIME COLD CURE—
DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold. Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable. It is therefore safe and harmless.

RUB RHEUMATISM FROM
STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only, not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs' Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs' Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

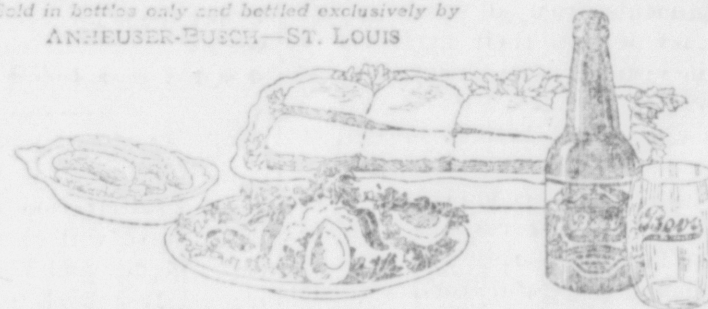

Put on the Bevo Glasses when you set the table for the jite you've prepared for the guests of the evening. As a suggestion for a dainty lunch: Cream cheese and chopped olive sandwiches (on brown bread), Dill pickles, Shrimp salad, Ice cold Bevo.

Itself a nutritive drink, Bevo makes an appetizing and delightful addition to any meal—hot or cold, light or heavy.

Bevo—the all-year-round soft drink.

This action is taken owing to circumstances which are beyond control of the publishers and which are well known to the patrons of the paper, the unprecedented increase in the cost of paper and in every branch of the printing business making it imperative. While the increase is so small to the individual subscribers it is hoped the publishers may count on their hearty cooperation in this vital matter of every patron of the paper.

HOCKEY GAMES FOR RED CROSS

A. A. MacKay of Ironton Prime Mover in Plan to Have Ironton and Brainerd Play

ONE GAME IN EACH TOWN

Fred C. Cook Asked to Lead and Develop Team in Brainerd, is Expert in the Game

A. A. MacKay of Ironton, an old hockey player and one of the team which last year won laurels in the play at St. Paul's outdoor carnival was in the city conferring with Fred C. Cook on a series of two games, one in Brainerd, one in Ironton, by Brainerd and Ironton teams, the gate receipts to be donated the Red Cross.

FOURTH HOP SUCCESS

Function of Commercial College Enjoyed Record Attendance Friday Night

The fourth of the series of dances given last evening by the Commercial College scored another big success and proved the popularity of these hops by a record attendance.

The Bergh orchestra received many compliments from all sides for the life they put into their music and for the new and snappy song hits they introduced.

The fifth and last of the college series will be given about Easter, and the social committee is planning some new and novel features for this dance. Altogether, the series has been exceptionally successful from a social standpoint, and financially as well, the proceeds of each hop being contributed to some war charity by vote of the students.

A number from St. Cloud, here last night with the basketball team, sampled the college hospitality after the game, and enjoyed the dancing until the "wee sma hours."

BRAINERD'S OLDEST STORIES OF TODAY

W. L. Taylor, who enjoys a reputation for truth and veracity, told the Dispatch that he saw a mailboat paddling in the river this morning. We thought we had him as the river is generally set solid in four feet of ice. Mr. Taylor explained how there was a little pond near the pumping station from which ice was thawed off by the exhaust steam and the duck was splashing around enjoying itself just as though it was early spring weather.

"What get's me," said a man confidentially to the reporter, "is that the ladies will persist in calling the work room busy as a bee hive in Red Cross work in the basement of the city hall, a rest room. Of all places, that certainly is no rest station and the name ought to be changed quick."

ACTION FOR DIVORCE

Laughton vs Laughton Being Heard by Judge W. S. McClenahan in District Court

In district court before Judge W. S. McClenahan the case of Ella Laughton vs George Laughton, an action for divorce, is on trial. The wife alleged cruelty and charged Laughton had tried to shoot her several times, that he had been twice arrested for assault.

The couple lived at Wolford near Cuyuna and they have one child, a boy of four. Murphy & Cook are attorneys for the wife and Swanson & Swanson for the husband.

TAKES CHILDREN

Norvig Deroske Left Brainerd With Three Children for Old Home in Ohio

Norvig Deroske left Brainerd with his three children bound for Akron, Ohio. He had been in jail some time on complaint of his wife and was released and left with the children. Marital troubles of the family who reside at Ironton caused the separation, it is believed.

DEATH LIST PUT AT 166 BY BRITISH

Report Four U. S. Officers And 143 Enlisted Men Lost On Tuscania.

CAPITAL STILL IN DARK

Admiralty Says That Bodies of 128 American Soldiers Have Been Recovered—Washington Figures Vary.

An Irish Port, Feb. 9.—Trawlers which have cruised about the scene and along the coast report that they have recovered no additional bodies and there is little hope that additional survivors of the Tuscania will be found.

The number of Americans missing is still placed at 101 by figures computed by the Tuscania's survivors' bureau here.

London, Feb. 9.—The British admiralty has informed the Associated Press that latest figures available on the Tuscania, torpedoed and sunk by a German submarine, showed 2,235 persons and been saved and about 166 were missing, of whom 147 were American soldiers—four officers and 143 enlisted men.

The saved, it was added, included 112 American officers and 1,917 American men; 16 officers and 183 men of the crew, and six passengers.

The bodies of 126 American troops have been recovered.

Of 148 survivors landed on the Scottish coast, 124 belonged to the United States army, including seven officers. Of these, one officer and 25 men are remaining where they landed to attend to funeral arrangements for American dead.

Washington Figures Vary.

Washington, Feb. 9.—Seventy-two hours after the Tuscania was torpedoed and sunk the War department last night still was unable to relieve increasing anxiety of relatives of those on board by announcing the list of survivors.

Even an unofficial report on circumstances attending the sinking was lacking and official figures still failed to accord with press accounts of the number lost.

The War department has had nothing to change the report that 219 persons were missing, 113 of them being American soldiers.

Despite realization that the loss was remarkably small, considering the number carried by the liner, the revised report of the British admiralty was received here with bitter disappointment. Press dispatches Thursday night indicating that the dead all told might not exceed 100 had led to the hope that possibly not more than 50 of the soldiers had perished.

BEST CROWDED WITH CHILDREN

Guests of Best Management, They Witness Presentation of "The Babes in the Woods"

TERRIFIC APPLAUSE FREQUENT

Bold Bad Men of the Woods Followed With Bated Breath, Adventures of Hansel and Grethel

In the old days it was up to a child to supply its own pictorialization of nursery rhymes and fables. The youngsters of the present day have the Fox films to give them the fairy story direct and in even better form than the original Hans Anderson. Mother Goose or other historian of the old days ever dreamed of.

This morning several hundred of the little folks of Brainerd accompanied by their teachers, witnessed the "Babes in the Woods" at 10 o'clock. Every seat was filled.

The adventures of Hansel and Grethel were followed with bated breath. Not a phase of the childish drama escaped them. The operator ran the picture slowly so that titles could be spelled out by the spectators.

When Hansel bested the bad Prince in a gory encounter and tossed him into the river there were cheers from the kids. Hansel was a most methodical fighter. Preparatory to every encounter he carefully rolled up his sleeves, as his mamma had taught him not to soil his sleeves, and he then landed vicious upper cuts and probably kicked the villain a few times in the shins and that was enough for any bad man to sicken and die on.

It is said that in the large cities the matinees are 90 per cent children and the evening performances 90 per cent grownups. Like "Jack and the Bean Stalk," also a Fox production, this "Babes in the Woods" is elaborately staged and portrayed. Bring the little ones. Go yourself, even if it's been some time since you were a kid. Go any way and see how the fairy story you read and pictured to yourself compares with the film story. You owe it to the kiddies to take them to the show.

WHERE TO WORSHIP

Norwegian-Danish Lutheran Long Lake 11 A. M. Sunday school at 12. Norwegian srenion at 7:45 P. M. Rev. A. Sorenson.

Swedish Bethany Church Sunday school at 10 a. m. 11 a. m. Swedish sermon by Rev. Clements. 6:30 Young Peoples society. 7:30 p. m. English services. Good music.

Evangelical Association Forsyth and Fourth Ave., N. E. 9:45 Sunday school, 11 A. M. services. 7 P. M. Young Peoples Alliance, 7 P. M. Junior Alliance in the S. S. room. 7:45 services. Elder Barkey will occupy the pulpit this Sunday. G. Herhold, pastor.

First Baptist Church Morning service at 11 A. M. The pastor will speak on the subject, "Perseverance." Evening service at 7:30. The sermon subject "The Memory of Lincoln." Anthems by the choir morning and evening. Sunday school at 9:45 A. M. Junior Society 3 P. M. B. Y. P. U. at 6:30 P. M. A cordial welcome awaits you at this church. Rev. R. E. Cody.

Bethlehem Evangelical Church Arno H. Franke, pastor, 823 Main street. Sunday school at 9:30 A. M. Church services at 10:30 A. M. As this will be the pastor's first Sunday in Brainerd, he extends a most cordial invitation to all members and friends of the church to participate in both services, and thus facilitate the usually difficult process of "getting acquainted."

Christian Science Christian Science services will be held in Camel's hall, Iron Exchange building, at eleven o'clock. Subject of the lesson sermon, "Spirit." Golden Text, Galatians 5:5, "For we through the spirit wait for the hope of righteousness by faith."

Sunday school at ten o'clock. Reading room open daily from three to five P. M. except Sundays and holidays. All are welcome at these services.

Peoples Congregational Church Rev. William Lloyd Crist, pastor. Sabbath school, 10 A. M. lesson, "Jesus Chooses the Twelve." Mark 3:7-19. Morning service 11 A. M. subject, "The Secret Place of God." Mr. Oscar Henning will sing "In the Secret of His Presence." At this service. Evening service 7:30 P. M. subject, "Accepting the Difficult Life, or a Man After God's Own

Heart." A cordial invitation is extended to all services.

Presbyterian Church Morning worship and service at 10:30 o'clock. The theme of the sermon will be "Seekers, Seeking God." The quartet will sing "Art Thou Weary," Lindsey. In the evening at 7:45 the sermon subject will be "The Superman and the Antichrist." The evening chorus will sing, Christian Endeavor at 6:45, Sunday school at noon. The men's Bible class is studying the book of Samuel under the teaching of the pastor. Men are invited. A cordial invitation is extended to all these services. W. J. Lowrie, pastor.

The Willing Workers society will have its meeting in the country at Joseph Johnson's home Wednesday evening. Midweek service Thursday evening at the home of Gust Ericson's, 1505 Pine street. You are cordially invited. P. Alfred Peterson, pastor.

St. Paul's Episcopal Church Quinquagesima Sunday, 10:30 morning prayer, subject of address, "Lincoln, Man and American." 11:30 Sunday school. 4:30 vesper service. The Rev. H. G. Stacey will review and discuss Mr. Wells books "God the Invisible King." In the book Mr. Wells, the most recent critic of the Christian religion, has made a most vigorous attack on the Christian conception of God. The thought on the trinity is hateful to the author. He flags the priests and parson. Nevertheless the book has a message for the churches. Mr. Wells has experienced a genuine conversion, an illuminating spiritual experience, and he is sincere. Has he discovered something new? The old writer asks "Is there anything whereof it may be said, see this is new? It hath been already of old time, which was before us." All are welcome to the services.

First Congregational Church This Sunday will be observed as "Lincoln Sunday" in the First Congregational church. Rev. Sheridan will preach on the themes "The Soul of America" and "Enduring Unto the End."

The morning worship will be patriotic, in addition to the regular music and anthem the "Battle Hymn of the Republic" and the "Star Spangled Banner" will be sung.

The vesper service will be special. The vested choir will render the anthem "Listening Angels," by the famous composer, J. Stainer.

These services commence at 10:30 and 4:30 respectively.

At 11:45 the Bible school will hold its session. H. A. Rahler will lead the men's class.

At 5:30 the Young Peoples C. E. society. We invite you to worship with us. Rev. G. P. Sheridan, minister.

Methodist Church Notes Morning worship at 10:30 A. M. As this is the Sabbath immediately preceding the birthday of our beloved martyred president, Abraham Lincoln, the pastor, Rev. F. W. Hill, will preach a sermon appropriate to the occasion on the subject "The Emancipation of the World."

Bible school at 12 o'clock. Epworth League at 6:45 o'clock. Topic, "Am I Doing Anything I Would Condemn in Another?" Romans 2:21-23.

Evening service at 7:45 P. M. The pastor will deliver the third number in the special series in "Noted Men of the Bible," the subject being "Zaccheus, the Man up the Tree." Special music: Anthem, "O Give Thanks," McPhail, choir; soprano solo, "Be Thou Nigh," Bailey, Miss Irene Brockway; anthem, "Praise Ye the Lord," Vance, choir. You are cordially invited to worship with us.

Rabbit Hair Supplants Wool. Rabbit hair is supplanting wool in the felt hat making industry of Australia, where there are thirty factories in operation at present making use of rabbit fur for this purpose. It is said to be superior to the finest merino, and millions of rabbit skins are made use of annually.

Window Hangings for the Home

It is a conclusive fact that the lace curtains and over drapes in the home make up a large part in the home furnishing. The next consideration with the hangings is the way they hang, if they sag they look untidy--this is caused by the curtain rod sagging. We have a remedy for this use "Kirsh Flat Rods" guaranteed not to sag, tarnish or rust is the rod you should use. We have them in brass and white. We can solve all window rod troubles for you.

See them before putting up your new spring rods and curtains.

AWAITING DEATH LIST ANXIETY GRIPS NATION

Washington, Feb. 9.—Hundreds of American homes are waiting anxiously for the names of nearly 150 fighting boys on the torpedoed Tuscania.

British and American wireless stations were searching the remotest points in Ireland and Scotland in the hope of locating further survivors from the ill-fated ship.

No attempt has been made by the War department to prepare a list of the lost or missing. Only the names of a few survivors have been received, and indications are that names of survivors would continue to come in slowly as they are assembled in Ireland by representatives of the War, State and Navy departments.

Cable Received From Francis.

Washington, Feb. 9.—The State department has just received a routine telegram from Ambassador Francis in Petrograd dated February 7. This was regarded as discounting further the unconfirmed report that the diplomatic representatives of all the Allies had been expelled from the capital by the Bolsheviks. State department officials were unprepared to believe that the American ambassador was leaving Petrograd, because this last dispatch contained nothing to indicate that he contemplated going.

Let Everyone Do His Share

A single strand in the cables which uphold the great Brooklyn suspension bridge is not very strong, but thousands of these strands bound together uphold one of the great thoroughfares of the world.

When our fathers and sons and brothers were called by our Country to take up arms in her defense, you did not hear an individual soldier refuse to serve because his service alone would not win the war. Each man was ready to do his part. The great army thus formed is going forward to face the fire of battle and to risk everything for the safety and security of our homes and our families, and for the very existence of our Country.

These are the men for whom you are asked to save and lend your dollars.

A Country worth fighting for is a Country worth saving for.

Why You

Should Buy Them

THE main reason for the purchase of War-Savings Stamps is because your country is at War. Your Country needs every penny which every man, woman, and child can save and lend in order to feed, clothe, arm, and equip the soldiers and sailors of America and to win this righteous war in defense of American honor and the cause of democracy throughout the world.

If we are to win the war, we must win it as a united people. The savings of every man, woman, and child are necessary if we are to hasten the victorious ending of the war. War Savers are Life Savers.

PAY AS YOU GO, OWN YOUR HOME

Purposes of Thrift Day Today and the Movement is Gaining Ground in Brainerd

THRIFT WEEK WAS A SUCCESS

Advertising, the Window Cards, Literature, Speeches, All Helped to Include Thrift

"Pay as you go and own your own home" was the purpose of this day of thrift week. The principles inculcated in the week will surely bear fruit.

The advertising, the window cards, the addresses made, all have helped to make public the virtues of thrift.

Pay as you go and own your own home is a principle which will do much to build up any town and will also do a world of good in Brainerd if heeded by all.

* ROOSEVELT IS BETTER; *
* OUTLOOK ENCOURAGING *

New York, Feb. 9.—Marked improvement during the preceding 24 hours in the condition of Col. Theodore Roosevelt was indicated in a bulletin issued by physicians attending him at Roosevelt hospital. The bulletin said: "Dr. Buel called on Col. Roosevelt at 8:15 o'clock. Col. Roosevelt has had a very comfortable day and is progressing favorably in every way. Temperature and pulse have been normal during the day and the violent symptoms of his internal ear inflammation are subsiding rapidly. The outlook is very encouraging." *****

Farmers Urged to Market Cereals.
Chicago, Feb. 9.—An appeal to farmers everywhere to make special effort to move corn, oats, rye and barley to market was made public here by E. C. Eikenberry, president of the Grain Dealers' National association. The appeal remarks the inadequacy of railroad facilities and asks that farmers make extraordinary efforts to help. Owing to the poor keeping qualities of the last corn crop, he urges that this cereal be rushed ahead of others, giving corn the preference when roads are best.

CONSPIRACY CHARGED

Wholesale Destruction of Industries And Shipping, Fomenting Strikes and Hampering Draft Included in Program.

Washington, Feb. 9.—Wholesale destruction of industries and shipping and other interference with the prosecution of the war have been planned by Industrial Workers of the World on the Pacific coast, it is said at the department of justice.

The indictment of 55 at Sacramento by a federal grand jury is the result of recent investigations by government agents, who discovered that leaders were plotting systematic sabotage.

The investigation was a direct result of the recent attempt to blow up the governor's residence at Sacramento. Agents discovered a nest of plotters, whose activities extended throughout the Pacific coast territory.

In addition to blowing up factories, plotters had planned to foment strikes among workmen engaged in war industries, destruction of fruit trees and crops and destruction of ships being built in yards along the coast.

Fifty-five Are Indicted.
Sacramento, Feb. 9.—An indictment charging 55 persons with conspiring with William D. Haywood, secretary of the Industrial Workers of the World, and others to hinder execution of laws of the United States, in prosecution of the war with Germany, has been returned by the United States grand jury.

The indictment alleged the defendants had entered into a general conspiracy with the other 300,000 members of the I. W. W. to overthrow the government and carry on a "wide-spread campaign of sabotage."

Assistant District Attorney Johnson said that evidence "had revealed acts of sabotage in many sections of the United States."

He said the campaign was aimed at the destruction of railways and crops.

U. S. AGENTS CAPTURE SPY

Confesses to Employment By German Government.

An Atlantic Port, Feb. 9.—A German spy was reported to have been found among 40 first and second cabin passengers of the Dutch liner Nieuw Amsterdam, who were detained by federal agents for examination.

After 12 thin sheets of paper, covered with letters and figures of a code had been found upon him, the man is said to have confessed that he was in the pay of the German government and had come here in order to furnish spies operating in this country with the new code.

He is also said to have stated that he received a large sum of money for undertaking the mission, but refused to give the names of the persons to whom the code was to be delivered.

The man was said to be a naturalized American citizen of Dutch and German origin.

MAY END HEATLESS MONDAYS

Ban to Be Lifted if Weather Stays Mild.

Washington, Feb. 9.—Continued improvement in weather and transportation conditions will bring an end to the heatless Mondays program after next Monday, Fuel Administrator Garfield announces.

Suspension of the program immediately in eight Southern states was announced by Dr. Garfield, after the receipt of reports showing that higher temperatures had relieved the coal shortage in the South. The states are North and South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi and Louisiana.

Dr. Garfield was more hopeful over the general outlook than at any time for weeks past.

Germany Plans to Beat Trade Boycott

Washington, Feb. 9.—Germany is launching a counter drive to offset growing fear of an Allied economic boycott after the war. "Secret agreements" to be promulgated by Germany and the greed of other nations will smash any boycott, declares the semi-official Wolff agency, in an article for wide distribution in Germany and Austria, a copy of which has reached this government. "By compensation agreements it would be easy for Germany to prevail upon countries to make exchanges."

Live Wires.
Measuring the current carried from electric wires by streams of water from fire hose, an Italian scientist found that chemical extinguishers were the most dangerous fire-fighting equipment to use around live wires.
